JUSTICE & GALBREATH'S COTTON PLANTER AND CULTIVATOR THE Patent" Right" o

this new invention in offered for sale by the in ventors. This Planter was lovented by an old cotton planter, and we feel safe in saying it is the best imement ever off-red to the outh This Machine con colurs and works as fo iows: Harrows the bed o row, and drops the seed and covers them up; thus completing the whole of the work at one golp; over, and saves the labor of four men and three horses; and does the work such nicer than can be done in the usual way

would be used in the renal way of sowin. Remember seed is worth 80 cents per bushel.

This Markine is also an elegant Cultivator, after the Cotton is up. The front plow, hopper, and covering block may plow the cotton, if necessary, all at once; thus saving the labor of at least 5 or 6 hands.

The above Machines can be got up at a cost of not over eleven dollars, and can be sold in the South for \$ 5 or \$80 as fast as they could be manufacture! or shipped there. Do not let anything prevent you making an investigation of our recommended. The first objection is yet got to be set up against it.

A small model of our Planter may be seen at the Sewance flour, College street, Nashville. We have set the Patent Bight of this Machine at 2% cents on the bale of cotton produced of any State. Reference being had to the Statistics of 1850. We can be seen at the Sewance House at present. After a few days, address JUSTICE & GALBREATH,
